This letter confirms that in the Fall of 1984, the Tom Saviano Company relocated and rebuilt my garage, and added a one room "apartment" (complete with full bath and kitchenette) to my home.

I had contracted with the Saviano Family in the past (Tom's father, Dom, for extensive remodeling at another address, and Tom's brother, Ralph, for some paving additions). I was so impressed with the quality of workmanship and the flexible manner in which they both worked with me and my "changes" that I felt totally confident and comfortable in retaining another member of the same family.

I was not dissappointed on this project. From the start, everything was conducted in a most professional manner. The drawings were done several times so as to incorporate the exact features I desired. The estimate was well itemized and understood, and the contract was such that I knew exactly what I was getting. The final amount for the project was exactly the amount of the estimate. (There were additional charges only for extra work I wanted as the job progressed - regarding this, Tom Saviano was most accomodating, and I knew the additional cost before proceeding).

The project was completed reasonably "on time", considering the changes I added. During construction, there was a minimum of inconvenience to our existing residence, and the site was kept reasonably clean and free of debris. My wife and I are very pleased with the end result, and will not hesitate to contract with the Tom Saviano Co. in the future. The above statement was unsolicited, and my wife, Anne, or myself would be most happy to answer any questions arising from it.
